Chapter 1
Temporal Fail Safe

Manlio Graziano, in his 2016 *In Rome We Trust: The Rise of Catholics in American Political Life*, says that the Vatican has become an expert in "soft power." My own Third Temple books *Rome* and *Dark Age* deal with the Roman Catholic doctrine of "Temporal Power," a papal/Vatican claim to world power. In them we show, in the context of biblical prophecy, how this "soft power" is achieved through occult politics. But what if sorcery and the revolutionary threat of Communism are unavailing. How can Mystery Babylon persuade men who are as rich as Croetius, men who have every pleasure that money can buy? How can she motivate them and compete in a practical reality in which they are adept? Daily they use that most infallible of incentives, but how can she instill the fear of death?

"What is the meaning this beehive-shaped tiara?" cries the emperor in exile, "when one of the crowns, symbolized in this triple-decker coronet, remains unfulfilled? Am I not the King of the World!" For fear of a few Christians, the United Nations has not openly crowned the pope. Therefore, the old schemer has plotted an indirect course to the imperial throne, involving intrigue. Our book *Rome* details how the Vatican uses sorcery and sin to enslave power brokers. The threat of Communism is also leveled against politicians, as we show in *Dark Age*. Heads roll in revolutions. But there is a group of power brokers, who, although they too are doubtless enslaved by sin, often seem to be exempt from coercion. Interestingly, for this reason, among others, they are often considered contenders for the title of world

rulers in conspiratorial circles. International bankers. What if bankers happen to be immune from sorcery or inticements to sin? How then can the Vatican control of them?

International Bankers

Even Illuminati defector Svali, whom we cite in *The Third Temple: Rome*, promotes the popular conspiratorial idea that international bankers run the world. Frankly, in a manner of speaking, she makes contradictory statements. On the one hand, apparently bankers rule. But this is done, substantially, through a secret society, the *Illuminati*. Does not Illuminism form the hub of this supposed New World Order cabal? But what is this? Illuminism is a form of Luciferian occultism which is derived from Rosicrucianism. All of this Svali explains. We also know that Rosicrucianism is the epitome of Christian Gnosticism? Ergo, international bankers must be Christian Gnostics. If this is so, does some burden of proof not lie upon establishing that bankers have some connection to Christianity? Where is this proof? Curiously, however; on the other hand, Svali is also a major source for proving Vatican connection to the leadership of the Illuminati. Is it insignificant that *Lucifer* is a titular synonym for *Christ* in Roman Catholicism, Lucifer the Gnostic Christ?

But if, as some biblical evidence seems to suggest, Mystery Babylon runs global finance and commerce, how is this done? Certainly, the heady sorcery of the witch itself is powerful for controlling minds, the minds of the elite, who then control the minds of the populace through mechanisms of drugs, media, government, education, etc. (Doing so *as she says*, it might be added. Were they to do so with regard to some agenda of their own, they would, no doubt, influence the populace to get rid of the harridan.) But one would expect to find a more practical method in which this is done also, a method of corporeal reality.

Mistress of Death

1. Carnal men are controlled through covetousness, through lust and avarice: therefore, seductions are employed. But as much as pleasure is an inducement,

2. pain is also used, and one would expect to find aversive methods of control. Frankly, this is the only mechanism of power with proven effectiveness, the only one that carnal men really understand, because they are, as the Bible says, slaves of death. Methods exploiting their own fear of death. But to exploit this in a religious sense, as in the threat of damnation, is abstract. Carnal men are motivated by the real immediate fear of death, fear of their own miserable death. How does Mystery Babylon hold the power of death over the powerful men of the earth? One method is her:

    a. Communist control of the masses. The elite fear nothing as much as a revolution deposing them or threatening their lives. Because she is endeared to the people and can manipulate them in a demagogic sense, Mystery Babylon circumvents powerful men. Revolutions are renowned for executing the former rulers, thus the fear/threat impetus is formidable, but it is not immediate.

    b. Revolutions are a gigantic enterprise, taking time, and with uncertain outcomes. Is there not a more immediate and convenient way to instill the fear of death? How can Mystery Babylon literally threaten the lives of the high and mighty? Does she too hold a sword? What form this Damocles sword? It must certainly be some sword other than that of the kings and merchants which she also utilizes vicariously, they being her agents. With this, her own sword, she controls even them, the kings and merchants, the powerful men of the earth. But what is this most primary sword of all?

Assassination

One would expect to find evidence of this if it were true. From the 16th to the 20th century, European history proves the culpability of the Jesuits in political assassinations. They were expelled from countries at least fifteen times and implicated in more than twenty political assassinations. By the 20th century, public awareness of the Counter-Reformation Movement had diminished significantly, but most of the high-profile political assassinations in the United States of American, for example, would be plagued by conspiratorial suspicion. Assassination has always been an organized political tool, but in the 20th century assassins were considered merely lone crackpots. Because the veil of secrecy is so effective and monolithic, one must search for clues where they may be found. The relative merits of particular conspiracy theories must be weighed accordingly. Naturally, the testimony of one witness is circumstantial. And its credibility is compromised if the character is disreputable. But this is often the only practical political evidence available. Ultimately, the testimonial validity must be resolved with regard to its relative congruence with biblical truth. Or it must resolved around a tentative theory about what we think the Bible is saying. It is also substantiated in part by its corroboration in the testimonies of other Illuminati defectors, but because these themselves are somewhat suspect, the "two-witness" rule scarcely rises above "circumstantial" evidence.

In this chapter we present the oft-disparaged testimony of a professed Illuminati assassin as circumstantial evidence to the effect that the Vatican controls bankers. Not that he states the matter this clearly or succinctly, but, given his testimony, one can come to no other conclusion. Although he is widely styled a "fantasist,"* I cite him because, confused though he may be,

* A newly coined, modern term that evidently represents a person more delusional and psychotic than a *fantast*, which is simply a "dreamer."

elements of his testimony are corroborated in numerous ways by the testimony of other defectors. Naturally, one wonders how he could have survived this long, after exposing the Illuminati and the Vatican. We will show that he admits to being if not a disinformation agent then an agent whose mission is, strangely enough, to enlighten the public to their nefarious activities, *on their behalf*. He is an apologist for the Illuminati. But this is counter-intuitive, is it not? It is if they are not beholden to God to reveal their activities from time to time. Several Illuminati defectors have confessed that this is in fact the case. Satan and his people must disclose their activities of perpetuating a vast, complex deception, somehow. God Himself requires them to. Perhaps James Casbolt is one of their methods of doing so. On the other hand (or also), he may be doing PR (publicity) work for them. He seems to be an avowed apologist. Indeed, much of the mainstream public seem inclined to readily adopt the Illuminati program, in all its sordid violence, as normative. This seems to be part of their desire.

While much of what we said about occultism in *Rome* is morbidly sensationalistic, as if it were the product of a diseased imagination, the congruence of the testimonies, the verification of tangential public facts, and the alignment of these factors with biblical prophecy is weighty and leads to the conclusion that there may be a horrible truth to Illuminati conspiracy theories. "Where there is smoke, there is fire." Furthermore, the subject of the Vatican crops up from time to time as an element in the testimonies. It does so in the testimony that we are preparing to present. It does so in a peculiar way, with regard to politics rather than occultism, which may inform us about the dynamic, the struggle for leadership, within the conspiracy.

A Felon's Testimony

I make no pretense to understand or adjudicate the Casbolt case. He was convicted of felony extortion of his ex-wife and her family. She accused him of spousal abuse and also of abusing

other women,* but he does not seem to have been arrested on these allegations. In any event, true though her claims may be, some of his fantastic claims about the Illuminati may be true also. The main accusation leveled against James Casbolt is that he is a "career criminal." But this is meaningless. Assassins are nothing but career criminals. And history proves that assassins are usually sorry, dissolute individuals. Later, I will suggest a manner in which both could be true, vindicating Haley Meijer, without necessarily discounting the particular claim of Casbolt which we will be focusing upon. The only reason for mentioning Casbolt at all is that his testimony, true or false, provides an example of a method of controlling bankers, eminently logical but rarely suggested. In any event, a detailed study of the case, in terms of psychology, is far too involved for our purposes here, but I attempt to be as succinct as possible.

Of umpteen conspiracy theories, James Casbolt ascribes to every single one. One wonders if there is one conspiracy that Casbolt does not ascribe to. Indeed, they are knitted together in his autobiography in a vast arabesque. But it is compelling that he drops numerous names of actual government officials, some of whom are apparently real, and he also networked with other Illuminati defectors, such as Max Spiers, and whistleblowers, such as Barry King; who corroborate features of his account. In any event, his testimony *seems* ingenuous and authentic. He mentions some things which are rare indeed, such as "sound" being used in the occultism of the Illuminati to open portholes to other dimensions. Illuminati defector Jesse Czebotar says the same thing. In fact, she says that the Vatican employs castrated chior boys for this very purpose.

Presumably, Miles Johnston, who interviewed both Spiers and Casbolt, was convinced that some truth lay behind some of Casbolt's claims by virtue of the correlations. That said, the investigation requires caveots, and, despite the recriminations of Casbolt's former spouse, which may be legitimate, Johnston

* Haley Meier vociferously declaims Miles Johnston on his blog, the *Bases Project*, for promoting Casbolt's stories in light of his conviction and spousal abuse.

seems to have employed some. At one point, Johnston publically calls Casbolt to account. That said, Johnston may have erred by allowing Casbolt too much credence.

Casbolt himself admits numerous times that he is in doubt of his own consciousness and sanity. He does this by saying that he is convinced that he is still under some level of hypnosis. Of course, as a purported Illuminati defector (although he never defines himself as such and rather still ascribes to many New Age tenets and even serves as something of an apologist for 1) pedophilia and 2) child sacrifice) he has (supposedly) actively tried to extricate himself from mind control. He ascribes to the cosmology that, basically, that the power structure of the whole world is in the occult hands of the Illuminati but that there are two factions, good and bad factions, which are in perpetual struggle. Jesse Czebotar also mentions the Light Side and the Dark Side, and while Czebotoar is a Christian, which is to say, she views both sides as evil, it does appear that the Devil plays the dynamic between the two sides to achieve his will. But the paradigm may seem to contradict Matthew 12: 26, Mark 3: 26, and Luke 11: 18: "If Satan also be divided against himself, how shall his kingdom stand." Perhaps the only point of unification for Satan's kingdom is opposition to Christ, and Armageddon would seem to be the consummation of this ultimate unification. Casbolt's ill-fated extortion attempt of his former father-in-law, Hank Meijer, billionaire CEO of the Meijer super-market chain, which led to his conviction, would seem to discount his entire testimony. But, if he actually was an authorized apologist for the Illuminati,* Casbolt (a *Manchurian Candidate*) may have been "commanded" to also wreck this testimony by committing an indefensible act of self-destruction, which would be sure to cast universal suspicion upon his revelations.

Because Casbolt's testimony sprawls indiscriminately over numerous topics, and he himself is apparently not able to make sense of his own experiences (but his conclusions fall on the side

* Illuminati defectors have testified that the Illuminati must reveal their subversive plans of destruction to the public somehow, probably because God has required the Devil to do so.

of characterizing the Illuminati conspiracy as largely a Nazi-alien agenda conspiracy) I will present an abbreviated version, based around elements that he mentions which are salient to our thesis: namely, the Roman Catholic connection. I synopsize those portions of his story for the sake of conciseness.

Illuminism is Christian Gnosticism

First of all, from the words of James Casbolt, we establish that the Illuminati is a form of Gnostic Christianity.

In his 2008 book *MI6 - Buried Alive*, Casbolt says:

> These people are now playing out a "Four Horsemen of the Apocalypse" scenario.

He goes on to explain the four stages of the New World Order, which involves various economic catastrophes and wars, each of which will be fomented by them. What is salient for us is the conceptualization. Presumably, it is an Illuminati concept and not Casbolt's own interpretation. But notice, it is predicated by biblical cosmology. Illuminati defectors reveal this over and over. The Illuminati functions consciously within the constructs of biblical cosmology. References to it abound in Illuminism and world conspiracy. It seems as though the Devil and his people can only establish a personal identity in relationship (and that relationship is one of antagonism) to God's Creation. But since God is life, and Creation is everything in the physical universe, this would seem to suggest that the impetus of evil is wholly to self destruction. Apparently, evil cannot exist, it cannot *be* and *have being*, apart from the Good. This is not to say that it consciously nurse the Good in order to prolong its parasitism, but its desire to destroy the Good is irrational because without the Good it literally ceases to exist. Therefore, Satan's desire to re-create the world, effacing any evidence of Almighty God, is impossible. It is a form of self-destructive insanity.

There is also the biblical connection of British Israelitism to

consider.

British Israelitism

In *Merging Agendas* we touched upon the little-known topic of British Israelitism, referencing the research of Jewish author Barry Chamish.* It is also referred to as *Anglo-Israelitism*, but because the lost tribe of Dan is identified by its members as the Tuatha De Danaan, which is Celtic and not Germanic, there is some question about this nomenclature. The doctrine deals with genetic lineage.** In any event, it is such a ridiculous fable that one wonders how the high-and-mighty could believe it. But it appears that some of them do. And while British Israelitism may not be strictly an example Christian Gnosticism, what with its identification with the Jews, it does appear to be an outgrowth of Protestant supersessionism. This seems to be the source of Illuminati Zionism, which muddies the popular conception of Zionism, Jewish and Christian, immensely.

* Author of *The Fall of Israel* (1992), *Who Murdered Yitzak Rabin* (1998), *Return of the Giants* (2000), *Israel Betrayed* (2001), and *Shabtai Tzvi, Labor Zionism and the Holocaust* (2005), among other books.

** Project Oaktree was an NSA program run from Harwell Laboratories in Oxfordshire, UK to locate descendants of Dan among the Celts because they were supposed to have the higest level of psychic ability. This was intimately connected to their Nazi goal of creating the *Übermensch*. What is significant is that the Romans defeated the Celtic Druids, and the Hebrews defeated the Canaanites. But these people want to resurrect an inferior thing.

Chapter 2
Casbolt–Vatican Connection

Not only is the Illuminati repleat with allusions to Gnostic Christianity, the Illuminati may actually be run by the grandest form of counterfeit Christianity on the planet.

1. Jesuit Orphanage

Casbolt claims to have been raised in a Jesuit orphanage. The exact sequence of events is unclear. From 1976-9, as a child, he was programmed in Project Ibis in an underground facility near Nelson, British Columbia; having been selected for the mind control program because of genetic characteristics of his birth parents. One of the handlers there was George Bush, SR, who would become president of the United States of America. After this period Casbolt may have resided in the Jesuit orphanage. Or the underground facility may have been the Jesuit orphanage. After three years of programming at Nelson, Casbolt was in the process of being transferred, when he was supposedly "rescued" by the armed forces of the "good side" of the Illuminati (whom Casbolt says were a part of Com-12, US Naval Intelligence, which itself is part of the international "Majestic" group— MJ12 and Majestic are connected programs but distinct) and taken to Toronto, Canada. It may have been at this time that he was farmed out through the Jesuit orphanage. Jesse Czebotar also mentions the "Light Side and the Dark Side" and infers that the Jesuits and the Vatican Hierarchy are the Light Side. They consider themselves the "true gods." If this is so, the US Naval

"Majestic" program may be controlled by Jesuits. And the Jesuit orphanage would have come after the Neslon DUMB.

2. Jesuit Indoctrination

In the orphanage he was repeatedly told that the Jesuits were going to create the most powerful man in the world, and he would be pope.* Elsewhere, he says that they need a strong leader to negotiate publically with aliens in the fake UFO invasion.

3. "Rome" connection of adoptive father

On his website, *jamescasbolt.com*, which is no longer online, he he mentions the underworld connections of his adopted father, Peter Casbolt (Casbolt's birth name was *Michael Prince*):

> My father Peter Casbolt was also MI6 and worked with the CIA and mafia in Rome in 1993 on covert cocaine and heroin trafficking operations.

Of course, this "Rome" connection alludes to the Mafia.

> The global drugs trade run by many factions of the global intelligence community cooperating together (MI6, CIA, MOSSAD etc) is worth at least £500 billion a year. This is more than the global oil trade. MI6 control many of the other intelligence agencies in the world. MI6 created the CIA in 1947 and still control them today.

* In *The Third Temple: Dark Age* we show that some futurists project that a very probable scenario for the global implementation of Artificial Intelligence in the future is that one man controls AI. Naturally, Christians assume that, in such a scenario, this one man would be the Antichrist. We argue that this man would need the support of an organization which adheres to the doctrine of global despotism. And because this group would promote him to the world at large, only a man of universally acknowledged moral impeccability would be selected for such a role.

Elsewhere, he dogmatically maintains that the NSA is the most powerful intelligence agency in the world and basically controls all others.

> This 'black ops' drug money or in classic Orwellian terms, MI6/CIA 'non-appropriated funds' is being used to fund government and military projects classified 'Above top secret'.
>
> These operations include a huge worldwide UFO cover up and the building and maintaining of deep underground military bases (D.U.M.B.S).

Ultimately, all of these underground projects are connected to pedophilia and a vast alien agenda,* which are organized in *Project Mannequin*, of which Casbolt says:

> The huge *child trafficking and Satanic ritual murder* networks in the UK is heavily connected to *Project Mannequin*** and very

* Casbolt mentions the Chemtrail program in relationship to pedophilia. He says "They are spraying human blood in the air . . ." Interestingly, years ago, a Chemtrail researcher named *Clifford Carnicom* identified human blood cells in high-altitude samples of the aerosol, the strange mixture of atomized particulates. Casbolt says that this has the effect of inducing a somnabulant state in the public and contributes to the hyper-sexualization of society and pedophilia. It produces retarded sex addicts. In addition to chemical means of hypnotizing people, presumably, the blood in Chemtrails is also used as an element of sorcery and witchcraft. The Chemtrail operators seem to have included this element because they are in the grip of superstition.

** "Much of the secret service apparatus in the U.K and U.S is an occult, paedophile network run by corrupt factions of the 'Illuminated' degrees of Freemasonry (33rd degree and above)," Casbolt writes in *MI6–Buried Alive*. The Rumble channel *The People's Voice* features an interview with Călin Georgescu, a conservative Romanian politician, who served as an official in the Club of Rome and the United Nations, in which he says, "The problem is that this [these] oligarch[s], all of them, are related with [the] system of the pedophilia." Marc Dutroux, a career Belgian criminal, convicted serial killer, serial rapist, and child molester, in his 2004 trial, claimed to be a subaltern of a powerful pedophile network. Because of his extravagant wealth he was widely thought to be financed. He was associated with the Abraxas cult; a NATO Secretary General was accused by multiple witnesses of participating in one of their murder/rape orgies. But this was never proven. "Journalist

evil factions in the intelligence community centered around the NSA, CIA and British Intelligence.

Of course, Christians believe that these supposed aliens are Fallen Angels and demons, but Christians have some difficulty accounting for the apparent physicality of some of the beings. Whether they have materialized in some manner or whether they represent a kind of Nephilim, that is, a hybrid physical creature, is not known. There are 1400 DUMBs worldwide, Casbolt says, many of which are connected by underground railways.*

Casbolt was programmed to be an assassin. He claims to have first assassinated a person (commited his first murder) at sixteen years of age. Subsequently, he would assassinate 200 persons, so he claims.

4. Modern-day knights

"The intelligence community consists of modern-day knights," Casbolt writes in *MI6–Buried Alive*. "The knightly Masonic orders . . ." which, as we show in *The Third Temple: Rome*, are based on the Catholic knighthoods and crusaders. There we suggest that the Jesuits, who are implicated in the 18th-century creation of Freemasonry, introduced knighthoods to intentionally connect Freemasonry and Catholicism.

5. Fourth Reich

Casbolt describes Illuminati conspiracy as a Nazi program that survived through Operation Paperclip and others, in which

Olenka Frenkiel claims that more than 20 potential witnesses in the case have died in mysterious circumstances," *Wikipedia* reports. In addition to this evidence of international pedophile trafficking and ritual murder, virtually every Illuminati defector has corroborated the reality of these sinister rings.

* Much of Casbolt's testimony about DUMBs is corroborated by Phil Schneider, whose father was a former Nazi that worked for US intelligence. Other Illuminati defectors also testify to the reality of these DUMBs.

Nazis were brought into US and European security agencies. Of course, the supposed Vatican Ratlines also smuggled Nazis out of Germany to avoid prosecution after WWII. Other Illuminati defectors corroborate this characterization.

The first Reichs were phases of the Holy Roman Empire. The Third Reich, which was Nazi Germany, therefore, would also have been an avowed continuation of the Holy Roman Empire, which was beholden to the pope. Elsewhere, Casbolt says that Hitler was under orders of the Vatican to reconquer Europe on behalf of the pope and unite England and Germany into one sovereign jurisdiction.* What of the Fourth Reich?

He says that this is also connected with British Israelitism, which appears to be connected to the Druidic (Celtic) aspect of the Illuminati. As a genetic theory it has a dubious connection to ancient Israel, also; supposedly, the tribe of Dan.

6. Magic Bullets

Casbolt describes assassinating a rogue MI6 agent who had stolen a suitcase nuclear bomb. He used a special handgun with alien technology in it. "If you are going to shoot an enhanced soldier or intelligence operative, a Glock-17 is not going to do it. The chest plate is reinforced. The slug won't cut through it." But Casbolt is convinced that "there is some sort of occult aspect, dealing with the engravings," also. "These bullets are blessed by the Vatican."

He also employed a small metal ancient Egyptian cube with "engravings" on it, which allows one to focus mental energy. The cubes have also been blessed by the Vatican.**

7. Worked with IRA

* "James Casbolt on Canada, Nazis, Rothschild's, Priesthood" (2016), the YouTube channel *Accidental Protégé*.

** "Based 9: Michael Prince Interview: Parts 1, 2, and 3." (2011), with Miles Johnston on *www.undergroundvideouk.com*.

> I worked in MI6 covert cocaine trafficking operations with the IRA in London between 1995 and 1999.

In an interview with Miles Johnston, Casbolt says "I have carried out many assassination under the instructions of MI6 Director Alfred Bonner."* Bonner was the head of MI6 and also the Director of Security in the DUMB at Dulce, New Mexico. Elsewhere, Casbolt also says, "I have done a lot of work for Opus Dei." Some of this work may have been in tandem with the IRA.

8. Worked for Opus Dei

On Casbolt's Facebook post "The List," which is evidently a reference to a hit list, a list of people considered dangerous by the New World order and targeted for assassination, he writes:

> . . . I grew up in this Jesuit Orphanage in Canada . . . and because I've been involved with the Vatican, officially been involved with SIS, the NSA and MI6 all whole life but unofficially is run by the Vatican. Supported by lost soldiers in Opus Dei, religious fanatics who are suicide Soldiers. . . .

Although the citation above was obviously written hastily, and the syntax is bad, the implication is clear enough. Casbolt seems to be saying that the Vatican runs SIS, NSA, and MI6. And that *he* was supported in his assassination work by Opus Dei, not necessarily the agencies just mentioned, although that may also be true in a secondary sense.

Opus Dei (Latin, *Work of God*) is a personal prelature of the Catholic Church, which was granted final approval in 1950 by Pope Pius XII. In 1982 Pope John Paul II affirmed its status as a

personal prelature through the apostolic constitution *Ut sit*. The membership of Opus Dei consists mostly of laymen, and the rest are secular priests governed by a prelate elected by specific members and appointed by the pope. They are religious zealots. *Wikipedia* says:

> Critics such as the Jesuit Wlodimir Ledóchowski refer to Opus Dei as a Catholic, Christian, or White form of Freemasonry.

Opus Dei is "intensely secretive."

> Due in part to its secrecy, the Jesuit-run magazine *America* in 1995 referred to it as "the most controversial group in the Catholic Church today".
>
> Exit counselor David Clark has described Opus Dei as "very cult-like". Opus Dei was investigated as a cult by the Belgian government after an investigation, and some aspects were found to be cult-like. The organisation has parallels with, but also very strong differences to, Scientology.
>
> The Opus Dei organisation has been described as a "Holy Mafia" or "Santa Mafia" in the 1970s due to alleged "inscrutable business practices".

Robert Hutchinson's 2014 book *Their Kingdom Come: Inside the Secret World of Opus Dei* says that Opus Dei is the financial arm of the Vatican.

Casbolt comments about Opus Dei.

> They've been trained since children. Around 50 Opus Dei soldiers have been sent out against these people. And they can't be recalled. Even if we wanted to recall them we couldn't. They've all changed. They've all changed their identities. They've all gone dark. They took a vow of poverty so they can't be bought.

Radical Muslims are also dangerous. They are consciously commited to a cause. No particular need for hypnosis, drugs, trauma-based mind control. Similarly the Jesuits are commited

to the deepest goals, those dealing with cosmological issues: namely, the eternality of the soul, the (supposed) will of God, and the dominionist aspirations of pleasing the deity with a world kingdom. Many Jews are also committed to establishing their vision of messianic age. Religious fanaticism is dangerous.

9. Vatican UFOlogy.

> I'm being prepared by the Vatican for a Blue Beam project to be presented by the Vatican . . .

In his 2011 *MI6-Buried Alive*, Casbolt says that the final stage of the New World Order is a "false flag alien invasion," which involves the Illuminati and "ET"s working together in the deception. The citation above, which is from his Facebook account, suggests that the Vatican runs the Illuminati.

Summation of Vatican Connection

The website *Reptilian Dimension* hosts the article "James Casbolt (Michael Prince) the spy assassin admits he is working directly for Opus Dei (A Jesuit/Vatican secret society)" (2015), which expresses the clear implications of Casbolt's testimony:

> Opus Dei is a Vatican secret society that is much higher in the NWO than the Illuminati. Those wishing to understand more about Opus Dei should read the book, "In God's name" by David Yallop. Opus Dei was actually in a power struggle with the Jesuits many years ago as documented by David Yallop. Opus Dei was involved in using a previous Pope, to remove a Jesuit General from his position in the Order, Opus Dei then protected the Pope from Jesuit assassination after this happened (any Pope who interferes with the Jesuit Order has always been assassinated historically). However the Jesuits who now openly control the Papal seat [Pope Francis, at the time] by having one of their own as a Pope, now control Opus Dei after previous power struggles. The highest secret societies in the NWO above

the Illuminati are within the Vatican.

(The Jesuit Order are currently at the very top of the NWO hierarchy just under Lucifer and his fallen host.)

Chapter 3
Felon's Testimony

Now we entertain Casbolt's account of his commission by Opus Dei to assasinate nine Rothschilds at one time.

Interestingly, a significant element of his testimony seems to be corroborated by detractors. An August 1, 2015 *Daily Mail* article, entitled "Fantasist. Violent crook. So how DID he marry a billionaire's daughter?" places Casbolt at the location of the supposed assassination.

> NOT so long ago, James Casbolt was one of the select guests at a gala dinner in New York. . . . The charity evening at Sotheby's, on Manhattan's Upper East Side . . .

It is remarkable, however, that, if the sensational riotous act of terrorism actually took place, it was not publically reported at the time. Nor was it reported subsequently. This calls into question not only Casbolt's account as possible mendacity but also his sanity. How could anyone be expected to believe such an outlandish tale without evidence, or so easily disproven? On the other hand, if it actually transpired, could there be a logical explanation for media silence on the matter?

Casbolt has related this account several times,* and each time it is substantially the same. While I do not claim to have heard every instance in which he recounts the incident, and I am not

defending him, I have not heard conflicting statements in the account.

Sotheby's

The Occupy Wall Street movement was creating a ruckus outside Sotheby's restaurant in New York in 2012 when Casbolt arrived with his wife, Haley Meijer, and his mother-in-law. They were harangued by protesters as they went inside. Upstairs they fraterized with Peter Lydon, who was Princess Diana's cousin, an adviser on charitable donations for the British Royal court, and the Duke of Marlborough.* The riot could be heard outside, and, Casbolt recalls in another rendition of the account,** that watches were being auctioned in another hall.

Casbolts' party were seated at a table with the entourage of Evelyn Rothschild. Other Rothschilds were seated at tables in the center of the room.

After dinner, Casbolt excused himself to go to the restroom. The bathroom attendant was an Opus Dei agent. It had been prearranged that he would be there for support. Casbolt ignored him, though. According to a prearranged plan, some of the lights had been turned off in the restroom. He would enter into a certain toilet cubicle denoted by the designated orientation of the lights. (Probably in the darkened stall.)

From a "hollow compartment" above the toilet (whether this was a cabinet, shelf, or newly excised hole in the wall or ceiling, Casbolt is not clear) he retrieved a Heckler & Koch submachine gun. A 9-millimeter Smith & Wesson was also taped under the toilet bowl.

Tucking the handgun under his belt, the Opus Dei attendent gave him an "all clear" sign of readiness. In another account

* Whether this was John George Vanderbilt Henry Spencer-Churchill, the 11th Duke of Marlborough, or his son, the 12th Duke, Charles James Spencer-Churchill, is not known.

** "James Casbolt on Canada, Nazis, Rothschild's, Priesthood" (2016), the YouTube channel *Accidental Protégé*.

Casbolt reveals what this sign was: the undercover Opus Dei agent uttered something in Latin. Out of the restroom, Casbolt boldly strode, weilding the machine gun.

About ten feet from the Rothschild table, he killed five of them. He dropped the machine gun, pulled the pistol, and shot the other four. The patriarch Rothschild, who was shot in the chest, admirably attempted to abscond, before falling.

Naturally, the place erupted in hysteria. Casbolt dropped the pistol, retrieved his wife Haley and his mother-in-law, and rushed out in the confusion. They ran downstairs and, out, by the front door, into the Occupy Wall Street crowd, the noise of which was, supposedly, a program intentionally designed to cover the noise and chaos inside. One of the security forces that had been policing the Occupy Wall Street protesters winked at Casbolt. The car was waiting for them by a prearranged plan.

The *goddess-maat.com* website says, citing Casbolt elsewhere, that this assassination of nine Rothschilds was "partly a revenge for what happened to princess Diana."

Naturally, Casbolt could have fabricated the whole story, based upon these facts. But there is also the slim possibility that his account is true.

Possible Reconciling of Facts

Among the many problems that confront one in dealing with the Casbolt account is his credibility. After separating from Haley Meijer, Casbolt threatened to release nude photos of her unless her father paid a considerable sum of money. Casbolt was

arrested and convicted of extortion.

In response to *The Bases Project* interviews with Casbolt, which provided him a forum, Haley Meijer responded in the blog with a vociferous rant, blaming Johnston for legitimizing him. She sounds rational and authoritative. Are her grievances not legitimate? She complains that Casbolt is a crazy criminal, and Johnston is irresponsible for enabling his lies and acrimony. Among other things, Casbolt said that, at one time, his father-in-law Hank Meijer was perhaps the highest ranking member of the Illuminati in the world, holding the office of *Pindar*, an acronym for "Pinnacle of the Draco" or "Penis of the Dragon," He is a Reptilian, Casbolt says. Certainly, making Meijer the top Illuminist in the world could be symptomatic of Casbolt's megalomania.

Is it possible to reconcile these positions? Why would one even want to? As noted earlier, features of Casbolt's account are corroborated by others. While there is some question about the relative weight to attribute to these various sources, the fact still remains. But perhaps the main thing is that Casbolt presents perhaps the only first-hand account of a Vatican assassination in modern times. Whether this is true or not is not particularly our interest. The fact that his account presents us with a manner in which it could be done; a fail safe manner in which the Vatican exercises authority among stubborn people; is.

Nevertheless, if we would entertain the story at all, we must account for certain facts:

1. the outlandishness of the asssination tale, which is not corroborated by any media outlet,

2. Casbolt's conviction for extortion and an apparent earlier record of petty crime in Cornwall, which discredits him,

3. Haley Meijer and her mother's apparent complicity, in some manner of reckoning,

4. and the apparent ingenuousness of Haley Meijer.

The Outlandishness

A. The lack of media coverage of such a sensational even as a public assassinations can be attributed to:

   a. The insulation of the richest people on earth from the media generally. They are not known and thus invisible. Some of them are not listed in the Forbes list of the richest people.

   b. The success of the Occupy Wall Street protest as a cover and the possibility that, as Casbolt said, it was organized for the purpose of covering the assassination, with security forces participating.

   c. The fear of the attendees of the Sotheby's dinner and auction, who being high and mighty, considered themselves also subject to being assassinated.

   d. All of the various media outlets, being controlled, were instructed to ignore the report, to obfuscate it.

Discredited

B. We have already mentioned that assassins are career criminals and generally of a disreputable sort. So this qualm does not carry much weight in itself. Besides, as we also said earlier, Casbolt may have been instructed to sabotage his testimony, even though the testimony may have bee authorized.

Womens' Complicity?

C. One issue that is not often brought up in the Casbolt story is the disposition of the Meijer women, who were his consorts.

   a. If Hank Meijer is actually a high-ranking member of the Illuminati, it stands to reason that his wife and daughter are conscious about the assassination and are thus complicit accomplices, or

   b. they are programmed multiples, in which case they may not remember the event, or they may not recall it as it actually happened. In other words, they could have been hypnotized to recall that the evening in question transpired without event, in a different manner than Casbolt relates.

Ex-Wife's Sincerity

D. Haley Meijer's apparently real outrage at researcher Miles Johnston for entertaining what she characterizes as Casbolt's psychosis could be an act, if in fact she has consciously abetted criminal activity. But this does not seem to represent the reality. Her outrage seems natural and ingenuous. But if she is a programmed multiple, she may genuinely have no recollection of any of the facts. Her daylight personality would preclude accepting any of the conditions as explained by Casbolt.

If there is any credibility to Casbolt's account, it emphasizes the mind-blowing monolithic power of the Vatican; which is, I think, the state of affairs presented in Revelation 17.
